

Cloudworks helps you succeed with BeyondTrust

cloudworks

Maximize your BeyondTrust investment with expert services from Cloudworks

Cloudworks is the **leading pure-play IAM partner in the Nordics**. We help private and public organizations strengthen security and compliance with tailored BeyondTrust Privileged Access Management (PAM) solutions – from **strategy and implementation to continuous optimization and operations**.

Privileged Remote Access | Password Safe | Endpoint Privilege Management | Identity Security Insights | Entitle | Remote Support

Why Cloudworks?

- ✓ End-to-end PAM services
- ✓ Certified BeyondTrust experts
- ✓ Proven delivery framework

▶ A partner for the long run

We're the Nordics' leading IAM & PAM team! With 150+ successful IAM projects and 350+ integrations delivered, we combine BeyondTrust-certified expertise with a broader understanding of secure identity infrastructure.

Advisory & Delivery Services

BeyondTrust Kickstart

We implement BeyondTrust using a proven methodology built on several successful deliveries. Our team ensures a smooth rollout tailored to your needs.

PAM Readiness

We assess your needs and define a clear path for your PAM strategy, covering:

- Business Requirements
- High-Level Architecture
- Solution Roadmap

Endpoint Privileged Management

We help you enforce least privilege on endpoints by deploying and fine-tuning BeyondTrust EPM. Reduce attack surface, control application access, and protect against lateral movement.

PAM Maturity Review

We evaluate your current PAM setup, uncovering risks, compliance gaps and untapped potential.

- Certified BeyondTrust specialists
- 4 workshops + follow-up interviews
- Final report with actionable recommendations

▶ Ensuring Customer Success

We help maximize the value of your BeyondTrust solution through expert guidance and proactive support

- ★ Technical Account Manager (TAM) – Strategic guidance for continuous improvement
- ★ Customer Success Manager (CSM) – Ensuring alignment with business goals
- ★ Managed Services – Continuous monitoring, 24/7 support & optimization
